Hydronics & Condensing Gas Boilers–October 16, 2021 – 8:30-2:30PM

Previous experience is recommended, but not required, to attend this Hydronics & Condensing Gas Boilers workshop. The course will discuss sizing a boiler, designing a hydronic system, determining flow rate, static pressure, and piping practices. Field examples such as combustion air, venting, piping configurations, and condensation removal will also be reviewed. This class will improve your skills of properly installing, operating, and servicing boilers.

Trainer: Kurt Massa

**Location of training: Johnstone Supply
411 Yerkes Road
King of Prussia, PA**

Time: 8:30-2:30PM

Cost: \$159.00 Members/\$199.00 Non-Member
